THE OAK ROOM

The Oak Room has a rich musical history stemming back to the noughties when it was used as a private recording studio by a range of artists including Radiohead. The acoustics in the room are unrivalled and it was no surprise that the room would later be transformed into an incredible live performance space.

The room has acted as a platform for emerging new talent and a stage for established artists. Highlights include performances by Johnny Marr, The Charlatans, Oh Wonder, Mystery Jets, John Grant and Michael Kiwanuke.

The space consists of 1,243 sqft and a capacity for up to 125 people. Boasting a first class PA HD Pro Audio system with expertly designed lighting from Richard Martin, the Oak Room acts as the perfect canvas for any event. The room also has its own bar, lounge and adjoining balcony allowing the space to be used for a variety of events including:
